

New SAFHR Program Updates

Hello MHDC Partners,

We're pleased to announce new ways to inform your communities about SAFHR, and to connect with us on social media.

Now Accepting Applications Statewide

As of April 1, we can now accept applications from tenants (and landlords - see below) who reside anywhere in Missouri. Previously, tenants in certain areas of the state needed to use applications specific to their locale, but no longer. Feel free to share our website and resources anywhere in Missouri.

New Website

We've created a new look for the program (see new logo above) and launched a new website experience. Now, it's easy to find all the information you or your communities need about the SAFHR program.

www.mohousingresources.com

Brochures

Our new brochures can be easily printed and physically distributed in your areas, or sent out via email. They contain helpful overviews of the programs and links to apply.

Social Media

We've also launched a social media presence - please like and share for the most up-to-date program announcements and news.

Landlord Program

SAFHR for Landlords is now available - landlords can apply for rental assistance and payment of rental arrears on behalf of their eligible tenants. See the brochure or visit our website.

Coming Up

Over the next few weeks, we'll be launching new informative video materials to further help Missourians apply and receive assistance through SAFHR. We'll send out additional communications when these are available.

As always, feel free to reach out to the SAFHR team with questions or comments.

Sincerely,

MHDC SAFHR Team
